

THE PROSPECTOR'S CREED

- 1 Every mine has more dirt than gold.
- 2 A prospector's job is to remove dirt as quickly as possible, leaving the gold behind.
- 3 A prospector who analyzes every speck of dirt won't find much gold.
- 4 Alchemy doesn't work - no one can turn dirt into gold.
- 5 Don't get mad at dirt for being dirt; move on for the gold.
- 6 Some dirt hides more gold than other dirt.
- 7 Given the same dirt, and equal ability to identify gold, the prospector who moves more dirt finds more gold!
