How to Download Assets on Desktop

After selecting 'Click to Download', a zipped file will drop into your downloads folder.

The screenshot shows a web browser at the URL `vulcan7.com/toolkit/`. The page features a navigation bar with 'Company Links', 'On the beat', and 'Work Lin'. Below the navigation, there is a 'Category' dropdown menu and a 'Download Selected' button. A table with columns 'Image', 'Link', and 'Categories' is visible. The 'Link' column contains a 'Click to Download' button. The 'Categories' column lists '2023 IG/X/Facebook Images, All Media, Evergreen Content'. A browser's 'Recent Download History' window is open, showing a file named 'Bundle (3).zip' (19.9 MB) that has been downloaded. A callout bubble with a dashed border points to the 'Click to Download' button, containing the text: 'After selecting 'Click to Download', a zipped file will drop into your downloads folder.'

How to Download Assets on Desktop

Double click the zip file to open the new unpacked folder. Now you're ready to share!
